Issue No. 5
March 2023

Destress With Calming Pictures.

Hi Beautiful Souls! We are so happy you this magazine.

Looking at calming pictures is a form of mindfulness meditation, also known as training your attention to achieve a mental state of calm concentration and positive emotions.

If you've ever heard the phrases "zone out" or "take a mental vacation," that's exactly what calming pictures have the power to do for your mind and, therefore, your overall wellness.

The next time you're stressed, try looking at our collection. It can have a calming effect on the mind, which can improve your mood and help you relax.

Whether you're new to using calming pictures and colours or a seasoned professional, consider keeping these sorts of images on hand for times of stress.

We hope you De-Stress Your Self!
